

EVA SOCIAL

— ROADMAP —

1.

First Version of Eva

The first version of eva has been released on the DeSo blockchain!

2. DeSo Communities

DeSo communities will allow for more interactivity on the DeSo and provides special features on the DeSo blockchain.

3. NFT Staking Rewards

Eva wants to be the first social media to introduce NFT Staking programs.

4. NFT Drops

After growing our community I would like to start an NFT collection.

5. Create A Blockchain

In the long term Eva might start running on multiple blockchains.

6. Become the New Twitter

The goal is to build a decentralized, web3 version of Twitter and eventually even take over.
